

Java Fullstack Developer

ES-14063

In the IT Services area, Our Partner implements the best in class solutions in the Business 4.0 era to enable strong digital foundations for our customers worldwide. We are working with a wide range of technologies and programming languages.

What you would be doing in short:

Area of responsibility 1: Application development

- Develop web application backend software using Java, Spring Boot framework
- Develop web application frontend or fullstack software solutions using Javascript, Node.JS, React frameworks

Area of responsibility 2: Software test and review

- Make sure to work according to the latest coding principles and guidelines
- Ensure high code quality and code coverage
- Understand architectural issues, and factor them into decisions and recommendations

Area of responsibility 3: Collaboration and DevOps CICD

- Own software design, collaborate within development team
- Implement and work with automated CICD solutions and DevOps tools
- Write good documentation
- Report and track progress in JIRA, Confluence

Requirements:

- Degrees: BSc in IT related fields
 - IT skills (in details with required levels, years of experience):
 - 3-5 years of experience of developing backend application using Java, Spring or Spring boot
 - Extensive knowledge on RESTful APIs and microservices architectures
 - Experience with SQL and noSQL databases
 - 2-3 years of experience developing frontend application using Javascript, HTML, CSS. Preferable deep knowledge on Node.JS and Angular or React.
 - Experience with DevOps practices and tools, CICD and Infrastructure-as-Code solutions
- Strong Business English

At Our Partner you will discover:

- Continuous learning and development
- Professionally outstandingly strong client team
- Chance to improve professional communication, in handling multi-technology and multi-tasking environment
A colorful and dynamic work environment with a great diversity of people, cultures, and business areas
- An open culture that improves the quality of life
- Learning and sharing that helps you to progress both professionally and personally
