

Indirect Category Manager

ES-13584

We are looking for Procurement Expert for our partner.

Location: Budapest

Tasks:

- Leading cross-functional Category Working Groups
- Responsible for development and implementation of category strategies for assigned categories
- Contributing to long lead items assessment, demand planning, and execution, market analysis, supplier selection, claim management
- Creating and maintaining an annual procurement plan (mid and long-term planning for a category group in alignment with business partners)
- Monitoring market developments, innovations, and technology trends and applying them to strategy and implementation work
- Contributing to sourcing process, participating in evaluation committees; supporting negotiations based on value limits and priority
- Contributes to consolidated procurement planning across categories within CS/DS/US/Indirect division

Requirements:

- University (MA/MSc) / College (BA/BSc) degree in the field of Economics / Engineering / Law
- 4-5 years experience in Procurement
- Excellent written and spoken command in English and Hungarian

- Great negotiation skills
- Ability to follow structures, but can survive the „creative chaos“
- Result-oriented mindset
- Can-do attitude
- User-level ERP system (SAP preferred) MS OFFICE, and E-Commerce tools knowledge
- Ability to travel

What our partner offers:

- Competitive salary and excellent compensation package
- Stable, multinational company
- Diverse and exciting job content
- Development through multidisciplinary project teams
- Opportunity to join a forward-thinking, changing business with ambitious expansion plans
